Subject: GreenPlan-IT paper published
Attachments: JSWBAY_optimal GI selection_Dec2018.pdf

Hello everyone:

Hope you all had a great holiday and Happy New Year!

As we mentioned at our last phone call, GreenPlan-IT paper was accepted for publication by ***Journal of Sustainable Water in the Built Environment (ASCE)***. The paper now officially came out and we want to share a copy with you. We are very pleased that GreenPlan-IT and its applications are now peer reviewed, a testimony of its scientific soundness and strength which set it apart from the pack.

Thank you for many fruitful discussion and invaluable advice over the past few years to helping shape the tool. Please let us know if you have any questions or want to discuss further.

Regards,

Jing Wu, PhD
